

Erasmus+ UK Programme

Higher Education Mobility Statistics 2007/08 – 2022/23

November 2022

These reports provide overall statistics for completed Higher Education (HE) mobility activities. Showing which academic year the mobility took place in. There are two reports. One providing statistics for the Erasmus programme from 2007/08 to 2013/14. The other provides results for activity under the Erasmus+ programme, from 2013/14. The latter provides data for only the decentralised mobility aspects of the programme. These are Key Action 103 *Mobility of Individuals within Europe* and Key Action 107 *International Credit Mobility*.

Projects funded under KA103 and KA107 promote transnational mobility for HE learners and staff.

Centralised actions are managed at a European level by the European Education and Culture Executive Agency (EACEA) located in Brussels, Belgium. Further information about these actions is available on the EACEA website (<http://eacea.ec.europa.eu>).

This report draws on management information for the Erasmus+ Programme. Only applications with a UK applicant institution or from a British Overseas Country or Territory (OCT) are included. The source for all data tables is the Erasmus+ UK National Agency unless stated otherwise.

The results supplied are broken down into the following tables in each report:

Table 1.1	Outgoing staff numbers by sending institution
Table 1.2	Outgoing student numbers by sending institution
Table 1.3	Outgoing staff & student numbers by UK region of sending institution
Table 1.4	Outgoing staff numbers by host country
Table 1.5	Outgoing student numbers by host country
Table 1.6	Outgoing staff numbers by subject area
Table 1.7	Outgoing student numbers by subject area
Table 1.8	Outgoing staff & student numbers by gender

These tables were prepared in November 2022 by Simon Ford (simon.ford@britishcouncil.org).

Comments about the report are welcome and should be sent to the author.
